Herewith we present a classified report of each school in town, in conformity with the requirements of the statute. We also think it proper at this time to call the attention of the citizens of the several districts to Chap. 89, Secs. 15 & 16 of the General Laws of this State, which requires every teacher to properly fill the blank Register furnished, and return the same to the Superintending Committee, and obtain a certificate therefor before receiving pay; which makes it clearly the duty of the Prudential Committee to know that such register is returned before paying the teacher for services. This law has been disregarded in many instances, and it has been with difficulty in some cases for your Committee to obtain the registers. We have been well pleased with the progress made in the schools throughout the town for the past year, and are gratified to be able to report discipline and improvement, in every district, "good" or "excellent." In making up our statistical report, our most unpleasant duty has been to report school houses in several districts unfit for school purposes, and hope that ere long we may see an improvement in this direction.

The truth we present a classified report of each school
 in town in conformity with the requirements of the statute.
 We also think it proper at this time to call the attention of
 the citizens of the several districts to Chap. 27, Sec. 15, a
 part of the General Laws of this State which requires every
 teacher to properly fill the blank Register furnished, and ob-
 tain a certificate therefor before receiving pay; which
 makes it clearly the duty of the Prudential Committee to
 know that such register is returned before paying the teach-
 er for services. This law has been disregarded in many
 instances, and it has been with difficulty in some cases for
 your Committee to obtain the registers. We have been
 well pleased with the progress made in the schools through-
 out the town for the past year, and are gratified to be able
 to report discipline and improvement in every district
 "good" or "excellent." In making up our statistical re-
 port, our most unpleasant duty has been to report school
 houses in several districts unfit for school purposes, and
 hope that ere long we may see an improvement in this di-
 rection.
